DIY Executive Dashboard

For Local Government

The Symphony3 Projects dashboard allows senior executives to oversee management of major projects and services across the whole organisation.

Our solution enables greater financial management to ensure:

- long-term commercial sustainability
- timely service delivery
- visibility and transparency

It will deliver immediate improvements to your council.

"It's an incredibly transparent and efficient way of communicating the performance of our project delivery to our community, councillors, government and internal team members."

Charlie Bird, CEO
Alpine Shire Council

symphony3
simple connected customer experiences

The DIY Executive Dashboard integrates a comprehensive project management framework, enabling seamless delivery of council projects, meeting community expectations, fulfilling obligations to funding bodies, and facilitating hassle-free audit reporting.

Key benefits

Transparency
Present progress on important projects to the public via your website. Be clear how public money is being spent on current and future projects.

Visibility
Provide instant visibility of status and progress on all projects and services for senior management and councillors. This allows management to focus on the projects that need the most attention.

Accountability
Drive ownership and accountability to ensure projects and services are delivered on time and within budget. Empower staff and unlock the potential in your best people.

You'll be in good company

Symphony3 staff have worked with hundreds of councils over many years. Here is a small sample of clients running our platform.

Key features

- Deployed within 48 hours via a secure SaaS platform.

- Do-It-Yourself set-up or get Symphony3 to guide you through the process.

- Traffic light system provides status at a glance. Easily see if projects are on schedule, or overdue.

- Filtering and search functions enable users to easily search and find projects.

- Spatial view allows users to see all projects in a map of the locality.

- Interactive graphs present data in an easily digestible format that can be exported for council or strategy report.

- Smart forms make it easy for users to enter and update data.

Extended features

- Financial reports give an overview of financial performance of each project.

- Customised reporting allows managers to discuss specific projects with their team.

- The dashboard is built with openness in mind. Our SmartGlue integration tools mean we can integrate quickly and effectively with your core systems.
